

[WEBINAR PROGRAM] BUILDING ENVELOPE INSPECTIONS & REPAIR SOLUTIONS

struc'tural
TECHNOLOGIES

BECS
Building Envelope Consultants and Scientists

The building envelope is made up of many components that work together to keep a building protected from the environment. Without regular inspections and timely repairs, building envelope issues can quickly lead to costly property damage, tenant dissatisfaction, or worse – life safety concerns.

A proper maintenance plan can extend the life of your structure, help you manage to your maintenance budget, and optimize the scheduling of high priority repairs. **But where do you begin?**

In a two-part educational program for owners, subject matter experts from **STRUCTURAL TECHNOLOGIES** and **Building Envelope Consultants and Scientists** will discuss effective methodologies for inspections and building envelope repairs. See our schedule below and sign up today!

THURSDAY OCTOBER 15 | 12:00 - 1:00 PM EST BUILDING ENVELOPE INSPECTIONS

- Understanding the components of a building envelope
- Areas to investigate in an annual facade inspection
- Spotting typical types of building envelope deterioration and serious life safety risks
- Structure access methods

FRIDAY OCTOBER 16 | 12:00 - 1:00 PM EST BUILDING ENVELOPE REPAIR SOLUTIONS

- How to prioritize and maximize repair dollars
- Proper repair processes and their impact on repair life
- The impact of repair timing on overall service life and repair costs
- Utilizing a turnkey approach to restore and enhance building envelope performance
